Kala Chanti – fragrance oils in spray

Oil-based interior fragrances are one of the most effective and long-lasting forms of aromatisation. The Chanti collection features carefully composed and distinctive aromas, created on the basis of real perfumes. Thanks to concentrated fragrance ingredients, the pleasant aroma lasts for at least 1-2 days after application. Each fragrance in the Chanti range contains active odour neutralisers.

Kala Chanti spray oils are ideal for both home and professional use – in hotels, wellness centres, waiting rooms, medical spaces, fitness centres and spas. Each composition brings a different energy to the interior and can evoke specific sensations. The Japanese Spring fragrance – a sense of lightness and elegance, Lemongrass – freshness and stimulation, and Patchouli Secrets – deep relaxation and soothing.
